Have you ever had your brows or lashes tinted? Yelf you had an adverse reaction to a previous tinting,	es/No please explain:
application, please be aware of the possible risks beI understand that tinting lashes or brows has	our safety and well-being before, during and after your tinting elow. Please initial: some inherent risk of irritation to the orbital eye area, including the eye olurry vision and potentially blindness should the tint enter into the eye.
I understand that if the tinting agent, develope eye will be flushed with water and medical atte	er, or mixture of both accidentally comes into contact with my eye, my ention may be required.
I understand that some irritation, itching or but the tinting agent.	rning may occur to the skin which comes in contact with
I understand that there may be some residual either my lashes, brows or both. This will fade	dark staining left on the skin following the tinting process of and go away within a short time.
I understand that, while every attempt will be a color differently and my final results may not be	made to provide me with my chosen color, everyone's hair absorbs e the color I initially wanted.
I understand that over the course of several w to keep the new color fresh. Most clients need	reeks, the tint will gradually lighten and fade. Re-tinting will be required to re-tint every 3-4 weeks.
to perform the tinting procedure we have discussed, and we this treatment. I have accurately answered the questions a ingesting or using topically. I understand my esthetician with possible.
